June 21 3633-3693
June 28 3755-3815

A

Accounting—Useful code system for raw stock in small woolen mills. Herbert C. Roberts 1886
Airplanes—Cotton fabrics used in cabin of airplane 1745
Cotton in the air. Robert Johnson.... 1506
Alfred Hofmann Inc.—Expands plant.... 1235
American Arbitration Assn.—Luncheon to Whiteside 1375

American Association of Textile Chemists and Colorists

New York section meets 2037
Piedmont Section meets 748
Rhode Island section discusses Colloresine and naphthol colors 2037
American Chemical Society—Annual meeting 2179
Rubber division discusses cotton problems 2037

American Cotton Manufacturers Association

Convention speaks of need for cooperation 2840
Program for May meeting 2459
American Federation of Labor—To organize southern wage-earners 616

American Society for Testing Materials

Clarification of definitions stressed at annual meeting of D-13 3766
Reports on cotton fiber research 1746
American Society of Mechanical Engineers—Textile testing and drying discussed at meeting 2856
Associated Knit Underwear Manufacturers of America—Urge adoption of rayon yarn standards 3248
Atlantic Cotton Association—Meeting 2172

B

Belts

Severe textile operating conditions govern choice of belting. W. Staniar..... 3378

Bleaching

Bleaching wool (Q) 1896
Card waste bleaching (Q) 1394
Chemical engineering problems in bleaching textiles. C. D. Blackwelder..... 64
Cloudy stains on sheeting (Q) 1769
Fabric defects caused by water. Herbert C. Roberts 1756
Improved wool-scouring process..... 2304
Reducing bleachery costs with modern equipment and methods. T. F. Hughes. 3143
Scoured wool develops odor (Q) 2489
Sulphur bleach house (Q) 1020
Surgical gauze bleaching (Q) 1393
Woolen nad worsted bleaching. H. L. Ariente 674
Bragdon, Joseph H. Dies (ed)..... 1217
Brake Lining — Marking and treating brake lining (Q) 3533

C

Calculating production standards and piece rates. M. C. Bishop 3516
Carbonizing—Spots and stains after carbonizing (Q) 2189
Chattanooga Yarn Men's Association—Hosts at golf 3652
China — Chinese market for textiles. Walter Buchler 1760
Converters Association—Annual meeting.. 313

Costs

How to find finishing costs 2278
Reducing bleachery costs with modern equipment and methods. T. F. Hughes 3143
Some internal conditions of the industry. Eugene Szepesi 1004
Trucking costs for textile mills. Morris A. Hall 66
Cotton index numbers 1923-1930 1636
Cotton index numbers 1925-1930..... 3514

Cotton Manufacturers

Cotton Manufacturers Association of North Carolina—Annual convention 3642
Cotton Manufacturers Association of South America—Annual meeting 3775
Cotton Manufacturers Association of Georgia—Meeting 2173

Cotton Manufacturing

A.C.M.C. convention emphasizes cooperation 2840
Amoskeag Mfg. Co. comes back..... 1630
Boger & Crawford will spin cotton to 200s. count 1511
Bunches in cotton roving (Q) 3024
Cable-laid twine (Q) 328
Can eveners be too sentitive? Comments on cotton picking (Q) 1768
Cause of hard ends on cotton intermediates (Q) 2186
Cotton in the air. Robert Johnson.... 1506
Cotton jacquard blankets vs. wool (Q).. 3788
Cotton lap variation, also eliminating split laps 442
Cotton webbing uneven (Q) 3788
Discussion of possible savings in wasteful handling of cotton 1098
Duties of an overseer of cotton carding (Q) 3152
Dyeing, bleaching and cloth-room problems discussed at N.A.C.M. overseer's forum 2852
Dyeing and finishing cotton plush. P. W. Youse 3779
Effect on noil of delaying feed on Heilman cotton comb (Q) 3534
Electric tapes (Q) 1896
Eveners on cotton pickers at fault (Q)..1393
Fabric has an undesirable crepe effect (Q) 1530
Feminine vogue brings back lace and revives a starving industry. John Black 2028
Figuring weavers' wages for cord tire fabric (Q) 1653
Georgia mill men exchange ideas on carding and spinning 1632
History of N.A.C.M. on 75th anniversary.2666
Hoover confers with cotton textile leaders 312
Is the cotton mill efficient? Yes. Leavelle McCampbell 2175
Kier stains on cotton cloth (Q) 1119
Knitted cotton tubing (Q) 453
Layout for weave-room addition (Q)....1529
Long draft and normal draft on cotton spinning frame. Gilbert R. Merrill.. 326
Machines, layouts and speeds for cotton opening and cleaning. C. A. Weston..3639
Mercerizing rayon-cotton piece goods...3770
Oil-treated vs. untreated carded cotton. A. R. Marley 1750
On the elimination of waste in cotton carding. Philip Allan 2858
"Pre-shrinking" muddle needs clean-up..3507
Preventing formation of faulty cops on cotton mules. Wm. King 1520
Progress in cotton fiber study. R. W. Webb and W. K. Farr 2178
Promoting sales and new outlets of cotton textiles 2847
Proofing industry-trends and technical development. S. G. Byam..... 1012
Single-process picking and long-draft spinning. Edwin D. Fowle 654
Slack twist on ring twisters (Q) 1528
Speed of cotton roving frames (Q)..... 3787
Spinning cotton to count. William King 1638
S.T.A. carders discuss problems..... 1877
Stains on Khaki drill (Q) 1528
Starting-up cotton card after grinding. Gilbert R. Merrill 2289
Stretched places in cotton card sliver, drawing sliver and roving (Q) 1020
Too much twist in cotton roving (Q)..2041
Toweling, narrow (Q) 70
Tubular weaves in the design and construction of narrow fabrics. Edwin J. Gibbons 444
Urges growing longer staple cotton.....1226
Warp preparation and weaving discussed at Overseer's forum 1874
When will cotton goods supply be balanced with demand? L. McCampbell 3377
Cotton marketing—Farm Board's place in picture 2673
Cotton Textile Institute—Called a "Pest," strongly defended 2671
Constructive forces in the institute. Geo. A. Sloan 623
Crabbing, see Finishing.

D

Design

Cheney offers printed novelties and "watertints" 1385
Cottons rival silks in French fabrics...2855
Creative textile design. Wm. E. Shinn.. 194, 1018
Crow twill applied to fancy worsteds. A. Yewdall 3772
Feminine vogue brings back lace and revives a starving industry. John Black 2028
Foundation weaves and design paper for narrow fabrics. Edwin J. Gibbons..*1380
French outlook on spring and summer fabrics. Jeanne Ledoux 1108
Geometric color patterns obtained in the plain weave. Alexander Yewdall....2466
Making the drawing-in draft for narrow fabric. E. J. Gibbons 3646
Original design for cotton dress goods..2291
Prize designs by child artists 202
Return of the "dressmaker mode." Mathieu Worth 630
Selvage for basket weave..... 3394
Sport outfit for the beach..... 2677
Suggestions for shirting designs..... 3522
Thinks good designers will be scarce in a few years (Q) 1021
Varied effects in narrow fabrics. Edwin J. Gibbons 2034, 2182
What the changes in styles means to the silk manufacturer. W. F. Campbell.. 632
Durene Association—Meeting 3008
1930 campaign outlined 318

Dyeing

Chromium plating finds increased use in textile industry. E. R. Granger..... 3653
Colloresine and naphthol colors 2037
Dip-dyeing (Q) 2188
Dyed mercerized yarns uneven (Q)..... 70
Dyehouse floors 3386
Dyehouse waste liquors (Q) 206
Dyeing vat colors on silk. Raymond Curtis 1644
Dyestuffs industry in Europe. J. G. Oliver 3015
Fabric defects caused by water. Herbert C. Roberts 1756
Figured damask (Q) 206
And finishing cotton plush. P. W. Youse 3779
Formic acid in sulphur dyeing. D. A. Robinson 192
Full-fashioned hosiery (Q) 1394
Glove silk (Q) 3662
Glove silk. T. P. Sheridan 3254
Hosiery dyes unevenly (Q) 3265
Light fastness of mixtures of anthrene jade green and vat yellows. E. R. Borho 3650
Printed rayon webbing (Q) 3660
Recent trends in wool dyeing. Winn W. Chase 1237
Reworked wool (Q) 3153
Serges in the grease (Q)..... 3534
Speck dyeing (Q) 1021
Spray printing on textiles. Alfred R. Marcormac 1880
Streaks in dyed cotton fabric (Q)..... 1119
Streaks in dyed yarn (Q) 455
Valves for vacuum dyeing machine (Q).3786
Weighting soupie with sumac (Q)..... 2489
Weighting soupie with sumac (Q)..... 3024

(Q) Questions and answers

E

Engineering

Cost of steam for heating (Q).....2689
Heating water for process work in textile mills. Chas. L. Hubbard 2024
Nomograph for determining boiler efficiency. W. F. Schaphorst 3013
Slatersville Finishing Co. adds power plant and filtration unit 3520
Steam accumulators for industrial power plants. P. E. Rogers 2861
Textile engineering and power generation. 681
Engineering, see also Power, Maintenance.

Exhibitions

Bemberg fashion review 441
Boston exhibition 2556
British Industries Fair 1510
Cotton-Textile Inst. exhibits at Style Show 319
Golden Fleece fashion and fabric revue.. 190
Guide to International Textile Exposition.2477
Knitting Arts Exhibition 2996
Textile manufacturers exhibit at N. Y. Aviation Show 1105
Textile World's guide to Knitting Arts Exhibition 2863

Exports

American textile exporters gain strength despite obstacles. Melvin Peyser.... 640
Bureau of Foreign and Domestic Commerce holds Textile Day in N. Y. C..1636
Japan's export of rayon goods expands..1643
Packing and marking for overseas shipment 1114
Selling organization for export 440
Three-year exports of mercerized yarn from U. S. 3525

F

Federal Trade Practice Conference—Underwear knitters agree to specify wool percentage 3249

Finishing

Chinchilla (Q) 3264
Cooling and conditioning serges (Q)....2491
Cotton-worsted fabric (Q) 3395
Determining oil in rayon 1884
Developments in processing cotton piece goods. Winn W. Chase 672
Dyeing and finishing cotton plush. P. W. Youse 3779
Fabric defects caused by water. Herbert C. Roberts 1756
Flatlock finish (Q) 68
Flatlock finish for thread (Q) 206
Formula for printed fabric (Q) 3396
Lint on sewing thread (Q) 2688
Mercerizing rayon-cotton piece goods....3770
Mohair plushes (Q) 3153
Montagnac overcoating (Q) 2690
Napped fabric (Q) 3788
Notes on crabbing. Robert Welsh 1763
Oil-treated vs. untreated carded cotton. A. R. Marley 1750
Plain and jacquard cotton velours. M. A. Beckoff 1109
Range drives (Q) 207
Rayon voile and georgette crepe (Q)....3662
Rubberized fabrics—trends and technical developments. S. G. Byam.....1012
Sewing thread (Q) 2880
Sewing-thread finish (Q) 2043
Shrinking of linen affects selvage (Q)..1395
Shrink-proofing jersey cloth (Q).....1652
Softening synthetic fiber (Q) 1894
Specifications for fabrics to be rubberized. Byam & Bailey 3510, 3776
Tinsel fabric dulled in finishing (Q)...2691
Velour (Q) 3266
Wrinkles in Blankets (Q) 1393

Footwear—Onward march of fabric footwear. Helen M. Haney 1221
Full-Fashioned Hosiery Mfgrs. of America —Annual meeting 3007
Furness Corp.—Rayon soon to be produced 1236

G

Gears—Improving gear performance on textile machinery. P. S. Huntley.....2684

H

Heaters—Heating water for process work in textile mills. Chas. L. Hubbard.....2024

Hosiery

Aberle settlement may guide full-fashioned industry 2033
Bad cast-off on selvage of full-fashioned hose (Q) 3026
Computing waste in hosiery and manufacturing (Q) 3786
Correct length of board for foot of hosiery (Q) 2296
Crease marks on full-fashioned hosiery (Q) 2879
Defects near seam (Q) 204
Determining source of slugs in full-fashioned 71
Dull-luster hosiery vogue. J. Black..3130
Dyes unevenly (Q) 3265
Full-fashioned hosiery machines and their operation. M. C. Miller.....3244
Full-fashioned hosiery trends. Geo. W. Taylor 2168
Full-fashioned in one operation?.....1512
Future of the full-fashioned hosiery business 3005
Fuzziness in silk stockings (Q) 3394
Holes made by vermin or rodents (Q)..3025
Hosiery yarns (Q) 2042
Leg differs from foot in color (Q).... 68
Leg differs from foot in color (Q).... 329
Marking seamless for mock seam (Q). 207
Needle breakage in full-fashioned hosiery plants (Q) 3532
Public opinion to settle hosiery strike..1634
Questionnaire asks trade view on new full-fashioned hosiery group plan....1753
Running bleached rayon noils with cotton (Q) 3662
Sleazy marks in full-fashioned hosiery (Q) 1529
Small spots on full-fashioned hosiery (Q) 3660
Soaking hosiery tram (Q) 2489
Sock uneven in color (Q) 329
Sole-splicing yarn breaks frequently (Q) 2689
Southern Textile Assn. to form hosiery division 1647
Spot on full-fashioned stocking (Q)..2491
Spots on rayon full-fashioned hosiery (Q) 1895
Spotted hosiery (Q) 1118
Stitch variations (Q) 205
Streaks in full-fashioned hose (Q)... 454
Strength and elongation of hosiery and other knit goods. Wm. Davis..... 196
Three faults in thrown silk for full-fashioned knitting (Q) 3152
Unevenness in half hose (Q) 205
Visiting French hosiery men study American Methods 2290
Water mark in full-fashioned hosiery (Q) 2691
Wool stockings are spotted (Q) 2298
Hosiery Guild, Inc.—Meeting 3007

I

Industry—Progress in 1929 50
Insurance—Group insurance for the industrial worker 58
Instruments, precision — for setting cotton yarn machiner. H. D. Martin.....2469
Inventions — Automatic cloth-setter for looms (Q) 1119

J

Japan—As a market for textiles. W. Buchler 3133
Seeks method to stabilize raw silk. J. Black 2851
Jute—Emulsion for (Q) 77

K

Knit Goods

Defects in knit fabrics 1763
Defects in knitted tubular rayon (Q)...3662
Formula for fulling wool knitted cloth (Q) 3266
Infants garments not uniform (Q).... 68
Knitted necktie (Q) 1769
Knitted outerwear code revised by Federal Trade Commission 2464
Machine for knitted cuff (Q) 2299
Napped knitted fabrics (Q) 3661
Non-run knitted fabric (Q) 1241
Problems considered at knitted outerwear convention 3762
Stains on knit goods (Q) 1894
Streak in jersey cloth (Q) 3025
Streaks in wool knit goods (Q).....2689
Streak on knitted fabric (Q) 3395
Survey of knit outerwear machinery gives data on obsolescence 3760

Knitting Machines

Chart for figuring production of knitting machines and related problems. A. S. Mark 1758
Designing ability of knitting machinery developed. M. C. Miller 676
Location of full-fashioned in South... 202
Types of warp knitting machines. M. C. Miller 1230

L

Labor

Aberle settlement may guide full-fashioned industry 2033
Aberle wage finding a compromise 2286
A. F. of L. to organize southern wage-earners. Wm. Green 616
Attitude of the worker depends on methods of his boss. J. J. Berliner..2462
Controlled night shift. Chas. H. Clark.. 627
Cotton industry leaders recommend shortening work-week 1370
Development work in southern mill villages. E. S. Draper 1106
"55-50" plan gains widespread endorsement 3247
Figuring weavers' wages for cord tire fabric (Q) 1653
Full-fashioned wage arbitration hit by Aberle shutdown 3256
Industry endorsing uniform work-week.1872
New houses for rayon plant employes. J. M. Livermore 3257
Northerners and Southerners demand elimination of night work.....2670
Public opinion to settle hosiery strike..1634
Restrictions favored by S. C. Manufacturers 3775
Some present day problems of the textile industry. Bernard M. Cone 1102
Southern labor situation. Ralph C. Maultsby 620
Union attacks industrial democracy plan at Danville 1377
Wages cut at Riverside and Dan River Cotton Mills 443
Labor, see also Overseers' Round-Table.
Lancashire Cotton Fair—Stresses rayon in mixtures 1227

Lights and Lighting

Maintenance of lighting systems. W. T. Jenkins 2031
Textile-mill illumination. S. A. Heman..1006
Linen—Facing reduced demand Ireland modernizes linen methods. Alfred S. Moore 1228
Lowell Textile Inst. Alumni Assn.—Meeting 3253
Lumber—Using creosoted 3144

M

Maintenance

Annual mill construction review..... 691
Discussion of steam traps 2681
Draw-filing cylinder of rotary press (Q).3026
Electrical developents in Textile Industry in 1929. H. W. Reding 1390
How American printing company maintains machinery efficiency. A. E. Hirst 3374
Improving gear performance on textile machinery. P. S. Huntley 2684
Maintenance of lighting systems. W. T. Jenkins 2031
New water works at Jone Division Plant of Arnold Print Works. Howard E. Bailey .....•1386
Revamping and re-equipping old mills. Ralph C. Maultsby 1014
Roof insulation for mill buildings. W. S. Wallace 60
Shortening machine-shop calculations (Q) 2491
Some internal conditions of the industry. Eugene Szepesi 1004
Survey of knit outerwear machinery gives data on obsolescence 3760
Textile machinery lubrication 2470
Textile machinery lubrication 3140
Wayne knitting mills completes new dye-house .....•1392
Maintenance, see also Power, Engineering.
Master Mechanic—Duties (Q) 1239
Master Mechanics consider diverse problems 1224

Mergers

Among fine goods mills 1872
Cannon Mills take interest in Ewing-Thomas Converting Co. 746
Champlain acquire Corticelli spun-silk mills 1376
Fleitmann & Co. and Dommerich & Co. merge 57
Tubize-Chatillon plan submitted to stockholders 745

Microscope

Camera and microscope as arbitrators. Herbert C. Roberts .....•1383
Don't be afraid of the microscope! Edw. R. Schwarz 320, 3136, 3250
Preparing cross-sections of textiles.....1110
Modernization—Textile power plants. W. F. Schaphorst 3144
Moth—Life cycle of the clothes moth. W. E. Wilson 450

(Q) Questions and answers

N

National Association of Cotton Manufacturers

History on 75th anniversary 2666
Master Mechanics Forum 1224
Overseers discuss dyeing, bleaching and cloth-room problems 2852
Warp preparation and weaving discussed..1874

National Association of Hosiery and Underwear Manufacturers—Election of officers 3003

National Association of Wool Manufacturers—Annual meeting 2030

National Association of Woolen and Worsted Overseers—Meeting in Rhode Island 3145

National Knitted Outerwear Association—Convention at Toronto, Canada 3762

National Raw Silk Exchange, Inc.—Progress and the prospects. Douglas Walker... 666

National Retail Dry Goods Association—Report in part 1508
Stress need of producer-distributor co-operation 1009

National Wool Marketing Corp.—Wool pool established 747

New Machinery and Processes

Air conditioner *1533
Air velocity meter for direct measurement 2049
American National standard screw gage..3157
Appliance for detecting metallic particles in fabrics 2497
Arc-welding research 213
Atmospheric normalizer 1655
Automatic color analyzer *1246
Automatic hosiery ribber 3790
Automatic humidity regulator 3397
Automatic radiator valve *1401
Automatic self-doffing calendar 3535
Automatic stoker drive 213
Automatic stoker for Scotch marine-type boilers 3028
Automatic switching equipment for emergency generators 2697
Basex 2697
Battery charger 212
Box truck 3268
BTA adjustable-speed motor applied to full-fashioned knitting machines.....1026
Cap frame spins dry-combed twistless rovings *1400
Capacitor motor, single-phase 213
Casablancas long-draft spinning 3790
Chain-driven roving frame 2881
"Colorgraph" box strapping 2883
Compact Palmer machine 1898
Comparative-size yarn table 3398
Concentrometer for determining boiler conditions 3269
Conditioning yarn on tubes or cones.....2696
Cone system extended to rayon warping..1029
Continuous Kier for cotton fabrics....*1531
Controlled-heat laboratory oven.....2048
Cooling roller for warp sizing.....1533
Corrections on conditioner article.....1657
Cotton cleaner, Buckley-type 461
Cotton Harvesting machine 76
Cotton opening and picking equipment.. 335
Depth gage attachment 1898
Desulfurizing and bleaching machine for rayon 1773
Device determines number of courses in knit fabrics 3536
Device for originating designs for fabrics 3397
Device for testing draping qualities of fabrics 1897
Device for testing hypochlorite bleach liquors 3027
Device for treating yarn in package form 1772
Direct air heating systems 2883
Dobby jack with removable hood.....2497
Double-lift selvage Jacquard 3536
Dynamic braking controller 1899
Electric floor-scrubbing and polishing machines 3537
Electric hoists 1898
Electric stop motion for hosiery knitters..1124
Electric stop motion on high-speed warpers 2496
Electricity for warp stop motion taken from loom motor *1246
Elevator drive 2496
Evaporator for concentrating mercerizing liquors 3269
Feeding device for welding..... 460
Feldlock dualfeed machine 3535
Finishing machine for tubular knit goods 3663
Flood light 3536
Gage, Electric for precision measurements 77
Gages, Depth 77
Harness-strap buckle 3790
High-speed rayon spindle 1897
High-speed warper 3789
Hinge pins for belt lacing 2195
Hosiery machine makes improved tow..1029
Hosiery mending machine *1532
Improved blending attachment.....3791
Improved friction clutch 2195
Improved speed-range lock for reading drive 3156
Improved wool-scouring process.....2304
Industrial vacuum cleaner 3157
Interlocking safety switch condulet....1899
Ironing machine for rayon underwear..3398
Isopropyl ether 1656
Jacquard engraving machine 3267
Lap dial scales 3268
Lathe for precision machining.....*1401
Lay motion for looms 2696
Lockstitch intermittent ruffling machine.3791
Loop picker and lug strap 3791
Lunometer (Q) 3787
Machine for printing floor coverings....1028
Machinery developments of 1929..... 686
Magazine silk calendar.....1125
Manometer with large bore 212
Master control for humidifying equipment *1247
Master switch 3156
Mercerizing cotton roving 2497
Mercerizing loose cotton 1125
Mercerizing yarn on spools 461
Metric system precision lathes 3029
Mixing, spraying and circulating machine 3537
Moisture-proof wrappers for rayon knitting cones 3157
Motor starter with fusible disconnect switch 3398
Multi-color airbrush 3028
Nail-cutting saw blade 3029
Nasmith-type comber 3664
New seamless hosiery toe 2195
Oil for preparing and finishing rayon...3027
Overload breakers 76
Overload switch for small motors.....2882
Paint sprayer..... 461
Patents on Butterworth Kier.....1657
Penetrating type dyeing machine 2048
Pushbutton unit 1125
Pressure regulator 3399
Reel drive and tension control 1655
Reeling machine for silk and rayon.... 460
Regain balance with new calculating tester (Q) 3153
Resetting pick counter 3267
Roller bearing trolleys 3269
Rotary machine for dyeing hosiery in small lots 3268
Rubber covering for loom take-up.... 212
Shrinking fabrics by "Sanforizing".....2194
Simplified silk loom 3535
Single-strand tester 3029
Slitting machine for knit goods 3399
Small hydro-extractor 1657
Small precision lathe 1899
Sodium silicate used in dyeing weighted silk 3157
Solving power-factor problems 1657
Standardized drive for screw conveyors..2195
Starter, A.C. motor 76
Steam flow meter 3028
Steel welding rod 2881
Strength tester gives direct readings at any standard of regain 2882
Stripper, Continuous cotton-card..... 334
Table-model single-strand tester.....3155
Telescoping gages 2696
Tentering and drying machine for piece goods 1771
Test for slipperiness of fabrics 2496
Testing welds with the stethoscope....1772
Textolite fittings for looms 1656
Thermostat to control industrial heating units 3537
Totalling enclosed motors 2049
Utility press for tool room and machine shop 1773
Vibration-insulating material 3399
Voltmeters and milliammeters *1401
Warp automatically opened by drop wire 335
Warp-tying machine 3267
Water-sealed casing for high-efficiency turbines 2697
Welded base for motor-generator sets..*1247
Welding rod 3791
Wide shears for floor coverings 2305
Winder for silk or rayon 3027
Wool garnet-card 3663
Woolen ring spinning frame 3664
Worsted frame spins four counts at same time 1124
Wrap-stripe attachment *1533

North Carolina State College—Holds textile institute 2293

O

Overseers' Round-Table

Bill and Pete discuss assistants.....3654
Bill takes the floor and wants written orders 2686
Changing workers from one machine to another 3258

Woolen Manufacturing

Age-old prejudice against reworked wool persists. J. S. Jacobs 3381
Blending wool (Q) 2042
Bowing of chenile rugs (Q).....3787
Carding a cotton and wool blend (Q)...1240
Chain-store development boosts the $22.50 suit. Wm. B. Dall 642
Cotton jacquard blankets vs. wool (Q)..3788
Eliminating defects from cassimeres. Geo. Rice 2288
Eliminating fault makers in woolen spinning. Richard Jackson 1646
Fails to reproduce woolen fabric exactly (Q) 1769
Finishing camel's hair cloaking (Q)...3534
Holes in wool and rayon fabric (Q)...3396
Modernism in automobile interiors. A. Henry Thurston 652
Melton finish roughs up (Q) 3024
Origin of Montagnac fabrics Alex Quin 2176
Progress in American-Oriental rugs. R. G. Knowland 662
Research improves textile oils. Ralf B. Trusler *1513
Ripple effect on broadcloth (Q) 2296
Science seeks wool from "vegetable sheep." Wm. B. Dall 1378
Spots and stains after carbonizing (Q)..2189
Spots and stains eliminated. Herbert C. Roberts 314
Some recent changes in woolen manufacturing methods. S. H. Wheelock....3523
Technical comments on wool growing and manufacturing. S. Kershaw.... 659
Tubular weaves in the design and construction of narrow fabrics. Edwin J. Gibbons 444
Uniform and upholstery cloths (Q) 2042
Use of pulled wools (Q) 3395
Useful code system for raw stock in small woolen mills. Herbert C. Roberts 1886
When shady cloth confronts the woolen or worsted manufacturer. B. F. Hayes 3769
Will woolens come back in 1930? W. H. Butler 664
Wool from the musk ox?.....2862
Wool shrinkage, and comparison of cross-bred and carpet wools (Q) 1652
Wool top futures market suggested....2465

Worsted Manufacturing

Amoskeag Mfg. Co. comes back.....1630
Calculating production standards and piece rates. M. C. Bishop.....3516
Holes in bathing-suit fabric (Q).....2189
Opinions of an experienced worsted spinner. Wm. Green 1234
Part-worsted serge (Q) 2043
When shady cloth confronts the woolen or worsted manufacturer. B. F. Hayes 3769

Y

Yarn

Carding cotton and wool blend (Q)..... 207
Expressing yarn breakage (Q) 207
Shape of cones on roving frames (Q)..2880

Yarn-Cotton

Analyzing flax and cotton yarn: detecting mercerization (Q)..... 69
Binding curls objectionably (Q).....3266
Cause of hard ends on cotton intermediates (Q) 2186
Comparing combed and carded cotton yarns (Q) 3264
Ends per dent for cotton and rayon; relation of reed width to beam width (Q) 2297
Factors affecting regularity of twist and lay in ring spinning. A. F. Bissonnette 2282
Filling wind vs. warp wind (Q).....3396
Formula for twist curves which show required front-roll speed. M. C. Bishop.3134
Glazing fine yarn (Q) 1241
Heavy places occurring regularly (Q)..1239
Heavy places occurring regularly in cotton yarn (Q) 2488
Is contraction allowed for in making ply cotton yarn? (Q) 3661
Moisture penetration of cotton yarn on filling bobbins. J. H. Whetmore...1017
Osnaburg constructions (Q).....1769
Precision instruments for setting cotton yarn machinery. H. D. Martin.....2469
Producing slub yarn on ring-doffer cards (Q) 2296
Regularity of twist in cotton roving and yarn 54
Relation of reed width to beam width (Q) 2490
Starting-up cotton card after grinding. Gilbert R. Merrill 2289
Testing cotton roving (Q) 2299
Twists for cotton knitting yarn (Q).. 204
Two turns per inch in two-ply cotton yarn (Q) 1894
Variation from mixed staple (Q).....1117
Yarn, mercerized—Three-year exports from U. S. 3525

Yarn—Rayon

American Commercial rayon yarns, giving denier and filament numbers....1238
Calculating single-yarn numbers for rayon-combination yarns (Q).....2690
Ends per dent for cotton and rayon; relation of reed width to beam width (Q) 2297
Relation of reed width to beam width (Q) 2490
Removing oil from cuprammonium rayon (Q) 3786
Softening synthetic fiber (Q) 1894
Takes size unevenly (Q) 453
Two different shades result from twisting colors (Q) 1117

Yarn—Woolen

Cause of uneven blending in Oxford yarn (Q) 2299
Side ends light on woolen card (Q)..... 329
Twist in zephyr yarns (Q) 2187
Using twisters for plying woolen yarn (Q) 2188
Woolen yarn for rugs (Q) 2879

Yarn—Worsted

Comparison of oil contents in Bradford and French worsted yarn.....2682
Formula for twist curves which show required front-roll speed. M. C. Bishop 3134
French-spun worsted yarns. Brompton.. 200
Novelty yarns and their use in worsted mills. L. M. Harless 1754
Shrinkage of worsted yarn (Q) 3026
